BEFORE YOU START

1. Find your child's level. If they have never taken a Sabha exam, ask a teacher to check their reading and writing and suggest where to begin; Ed Horizon does this in the free demo class.
2. Plan one level at a time. Each exam builds on the last, so skipping ahead rarely saves time.
3. Keep this sheet with the certificates, so the record is in one place when a school or college asks.
4. Registration and exam dates are set by the Sabha through its centres and recognised teachers. Ask us and we will tell you what applies in your country.
